

New Skin, All-Female Performance Group, Toronto

New Skin, an All-Female Pro Performance Group from Toronto, Canada, was conceptualized in late 2009 by Nadia Vargola and Mira Schwartzburg for the purpose of establishing a fierce, yet feminine presence of a women-based performance team that would engage, inspire and continuously raise the bar in the Latin dance community at home and world-wide. ***New Skin*** empowers and challenges independent and motivated women who all share the same undeniable and addictive passion for dance and music. It has since been the creative outlet that allows its members to actualize their dreams of performing on international stages, travelling to exotic destinations, building life-long friendships and, of course, performing unique choreographies in unforgettable custom-made outfits that make every woman feel simply beautiful. In 2011 the ever growing group was divided into two Teams.
